Subject: EJ Transition Information
Attachments: Biden EJ Plan.docx

Deb,

You had expressed an interest in information related to EPA's EJ focus during the next administration. Today, OEJ and the Lead Region for EJ held a national EJ Program conversation to begin talking about the next four years and the attached document was included with the meeting invitation. It's an excerpt from the Biden campaign website so it should be viewed in that context but it provides a glimpse into some potential areas of focus over the next four years.

Corbin
